Ref. No.: 5005

Date : 17/4/2018

From : Du<sub>3</sub>M Initiative 2025 / IRAQ

Subject : The Strategic Plans for ICT Development – Du<sub>3</sub>M Initiative 2025.

To whom it may concern

Dear Sir / Madam,

Regarding to the Iraqi Council of Ministers decision No. 94 dated on 6/3/2018 approving the suggestion prepared by CMC (Communications and Media Commission of Iraq) to launch Du<sub>3</sub>M Initiative 2025 for ICT development, we would like to share the strategy of this Initiative with you for promoting cooperation frameworks and experience sharing.

About Du<sub>3</sub>M

A strategic initiative in the Telecommunications and Information Technology sector with a number of essential objectives and targets to be attained, established by the Communications and Media Commission (CMC) of Iraq, the official and exclusive regulator of telecommunications sector in Iraq, and approved by the Prime Minister Office where its name is assigned based on an inspiration from the ancient Sumerian language and Arabic language bearing the meaning of "Building the Future" as Du<sub>3</sub> stands for "Build" in the Sumerian language and M stands for "Future" in the Arabic language. The initiative is approved by the Iraqi government lead by His Excellency the Prime Minister Dr. Haider Al-Abadi, for the period (2018-2025).

Executive Committee

A higher committee chaired by the CMC and membership of the Consultants' Commission-Prime Minister Office, and Iraqi Telecommunications and Infrastructure Company where sub-committees to be split from the higher one and composed of governmental and private sectors. The steering committee will initially consist of three members, these are:

- The head of the initiative Dr. Ali Naser Al-Khwildi (the CEO of the Communications and Media Commission of Iraq).
- The deputy head Dr. Haider Radhi (telecommunication consultant in Consultants' Commission - Prime Minister Office).
- A member from the Iraqi Telecommunications and Infrastructure Company - Ministry of Communications.

#### Vision

Achieving an integrated and developed information society that keeps pace with the rapid evolutions of the Telecommunication/Information and Communication Technologies in the world and empowered by interconnected network, where individuals get skilled and economic is developed.

#### Mission

The perfect investment and allocation of Iraq resources like radio-frequency spectrum and satellite orbital frequencies to promote and evolve the ICT sector in Iraq as analogous to the bordering and developed countries and raise the rank of Iraq in this vital sector by means of a robust, reliable, and continuously enhancing telecommunication/ICT network and systems.

#### Targets

- Recognizing the critical role of ICT sector as a key enabler for social, economic and environmentally sustainable development.
- Fostering digital economy and society transformation by enabling the access and encouraging the growing use of the telecommunication/ICT.

- Strengthening cooperation and engagement among the stakeholders, unifying the efforts to remove the obstacles standing in the way of ICT sector evolution process, and opening a new horizon for the investors.
- Supporting the investment resources and fulfilling the even investing competition.
- Embracing the transparency at work of ICT sector.
- Offering a real partnership between the governmental and private entities.
- Empowering the individuals especially the disabled people and those who live in the rural/suburb regions to have access to high level ICT services and applications by fostering telecommunication/ICT accessibility and affordability.
- Offering job opportunities for the youth population and a conducive environment that encourages skills and intellectual abilities development.
- Promoting the ICT rank of Iraq regionally and internationally.

#### Projects

In order to materialize Du<sub>3</sub>M's vision and facilitate the achievement of its strategic targets, Du<sub>3</sub>M's attention is focused towards implementing many essential projects that would contribute to developing the telecommunication/ICT in Iraq, some of these projects are listed:

- Liberating the telecommunication/ICT infrastructure.
- The Electronic Government.
- Releasing the 4G (LTE and LTE-Advanced) and 5G services.
- Cyber Security, Digital Content, Data Center, and Applications licensing.
- Telecom Infrastructure Sharing, E-Waste Management, and Clean Energy Usage.
- Internet Exchange Point (IXP), Big Data Management.
- Universal Access.
- Standardization.
- Digital Financial Inclusion.
- Teleport Services.
